The report of last year indicated that census figures were unreliable in predicting enrollment. The census indicated an enrollment of 27 in grade 1. Actual enrollment as of Jan. 31 was 47. The increased enrollment in grades 1-4 as of Jan. 31 was 19. In grades 1-2 the increase was 21 above last year. The enrollment in grades 1-4 was 149 a figure 2 greater than the whole enrollment in 1944.

The high school enrollment at Manchester has increased due to the inclusion of pupils residing in the Goffs Falls area of the town. The high school enrollment is increasingly a cause of financial concern to the district. It is the legal responsibility of the district to provide educational opportunity at secondary level. With the state ave. cost of high school instruction still on the increase (for 1953-54 the legal responsibility of the district is \$300.19) and number of pupils increasing the effect on the budget is serious.

INSTRUCTION

The resignation of Mrs. Edmunds in the spring of 1952 necessitated obtaining a substitute. Mrs. Helen Hurley, a teacher of experience was available and instruction was not interrupted. Mrs. Hurley continued on as regular teacher. The enrollment of 47 first grade pupils in the fall necessitated obtaining an additional teacher in the fall. It also required additional seating. In conference with the state board of education to determine how to meet the emergency housing situation it was decided to relocate the temporary partition and add another room as a temporary measure. Mrs. Mildred Janosz was engaged as an additional teacher. These two changes were all that occurred in teaching personnel.

The district is indeed fortunate to obtain and retain the services of so many competent teachers in a period of teacher shortage.

The cooperation of townspeople and town officials has made it possible to provide some opportunity for the pupils to learn some basketball which is an asset when they reach secondary school. This is a small beginning in the special field of physical education.

The other special areas that were continued were music and handwriting. These fields have been well taken care of and the performances presented by the pupils meet with general approval.

The need for expanding the services rendered to children still exists. Guide and remedial work based on diagnostic tests can be an economy by avoiding retardation and failures. When stability of expenditures permits such an expansion of educational services, it is desirable.

FINANCE

The operational budget exclusive of capital outlay, debt service and special articles shows an increase of \$7,860.66.

ADMINISTRATION

This area of the budget composed mainly of statutory items shows an increase of \$51.01. The increases are nominal and reflect the increases in adjusted valuation and increased enrollment. These items determine the district's share of the supervisory union budget.

INSTRUCTION

This is the largest area of increase. The increase of \$3,637.08 is mostly due to the salary of an additional teacher with increases to the remainder of the staff.

OPERATION OF PLANT

An increase of \$600 occurs in this portion of the budget. It is spread equally in three items. Fuel is a realistic figure. Our costs for 51-52 were slightly over \$1,100. Repairs is increased \$200 to permit some interior painting. Janitor's salary reflects the increased load imposed by increased enrollment.

AUXILIARY ACTIVITIES

The increase in this area is all in tuition. A slight increase in health service is more than balanced by a decrease

in transportation. Part of the increase is due to Goff's Falls children and the balance by increase in enrollment.

FIXED CHARGES

The increase here is statutory. The retirement item is fixed by the retirement law.

CAPITAL OUTLAY

Capital outlay including debt service is reduced \$262.50 making a net increase in operational budget of \$7,598.16. The greatest portion of the increase reflects increased elementary enrollment plus increased high school tuition.

Income, however, may show considerable increase. State aid should be more this year than last. The increased enrollments results in an increased share of state aid funds. In addition to this the state budget shows an increase of 50% in state funds. If voted by the legislature, it could conceivably result in an increase of \$4,000 or more being paid to the district.

SPECIAL ARTICLES

The first two special articles reflect the increased enrollment. In the first of these articles permission is asked to use unanticipated income (state aid) for current expenses. \$228.26 more was received than estimated. If permission is granted to use these monies the \$1,550 asked for in the next article will permit the board to meet all bills incurred in opening and equipping an additional room including the salary of a teacher.

The following table of actual enrollments at the end of January of the years listed will give tangible evidence of the necessity of including the following three special articles.

	Grades 1-4	Grades 5-8	Total
1944	76	71	147
1945	91	76	167
1946	87	65	152
1947	96	64	160
1948	109	69	178
1949	107	96	203
1950	124	102	226
1951	122	112	234
1952	130	104	234
1953	149	111	260

In 1947 the planning of a building made allowance for a 25% increase in enrollment. In addition debt limitations made it impossible to erect more classrooms. Since 1947 the enrollment has increased 62½%. The enrollment in grades 1-4 has increased 50% in the same period and in 1953 exceeds by 2 the enrollment for all eight grades in 1944. With this enrollment in the lower grades the proposed plan provides for some additional expansion. It is economical.

The next article concerns the repayment of Mrs. Mary F. Swanlund for expenses incurred in clearing title to the Morrison School. The sale by the school board of this property was in accord with the vote of the district and upon legal advice was conducted as a public auction. Heirs presented a claim to Mr. & Mrs. Swanlund. It was paid. Conferences with the attorney for the purchaser and the board and its attorney resulted in the insertion of this article.

The enjoyment and pleasure obtained from the equipment installed thus far in the playground area caused the board to insert the article to expand the facilities. The feeling of the board is that this use of the money would more nearly meet the wishes of the donor.

It is a privilege to have worked for children in a community where the welfare of children is so much a part of the

community philosophy. I appreciate all cooperative acts of townspeople, parents, teachers and pupils. The school board too is guided by the principle "We will do it if we can, provided that the children benefit".

Respectfully submitted,

EVERTON H. PARKINSON,
Superintendent of Schools.
